

**PRESS RELEASE 10/2025**

## **cargo-partner at transport logistic 2025 – driving connectivity and sustainability**

**At transport logistic 2025, cargo-partner and Nippon Express will present their unified pan-European road transport network. Another key focus will be sustainability, with concrete solutions to reduce logistics-related emissions across air, sea, road, and rail transport.**

Having been a proud member of NIPPON EXPRESS HOLDINGS, INC. since 2024, cargo-partner will join the Nippon Express Group booth in Hall A4 (Booth 319/420). From June 2 to 5, 2025, cargo-partner will be showcasing its expanded global network, the ONE Road initiative for seamless European road transport, as well as sustainable solutions designed to reduce emissions across all transport modes.

Held every two years in Munich since 1978, transport logistic is the world's leading trade fair for logistics, mobility, IT, and supply chain management. The event brings together key decision-makers and industry experts from across the globe to explore new developments and shape the future of logistics.

### **Unified Road Transport Across Europe: “ONE Road”**

One of the key highlights at this year's fair will be “ONE Road” – the newly integrated pan-European road transport network developed by cargo-partner and Nippon Express. By combining cargo-partner's strong footprint in Central and Eastern Europe with Nippon Express's established presence in Western Europe, the project delivers seamless road transport solutions.

The network covers a full range of services from groupage to LTL and FTL and has already led to unified operations in Italy, with further expansion into Belgium, the Netherlands, and the UK underway. cargo-partner's regional hubs in Vienna, Žory, Ljubljana, Zagreb, and Sofia play a crucial role in ensuring service reliability, speed, and flexibility.

### **Driving Sustainable Logistics – Together**

Sustainability will be the second key focus for cargo-partner at transport logistic 2025. As part of its ongoing efforts to reduce greenhouse gas emissions and help customers meet their ESG targets, cargo-partner offers a wide range of low-emission transport options, including Sustainable Aviation Fuel (SAF), Sustainable Marine Fuel (SMF), Hydrotreated Vegetable Oil (HVO) and electric trucks, rail transport and intermodal solutions.

In 2025, cargo-partner was awarded the Silver medal by EcoVadis, a leading provider of corporate sustainability ratings, placing the company in the top 8% of all rated companies. cargo-partner's “Measure – Optimize – Reduce” approach ensures actionable emissions reduction based on GLEC- and ISO-compliant data. Clients receive verified CO<sub>2</sub>e reduction certificates for full transparency and accountability.

In addition to these focus topics, cargo-partner will present its full portfolio of transport and logistics services, including air, sea, road and rail transport, warehousing, as well as customized solutions for industries like automotive, high tech, pharmaceuticals, foodstuffs, fashion and retail.

Vienna, May 20, 2025
