Comprehensive Logistics Service for Shoes and Accessories

Gabor Shoes AG, a fashion company specializing in the production of shoes and bags, has been relying on transport and info-logistics solutions by cargo-partner for over 10 years. The cooperation includes worldwide air, sea and road shipments.

Gabor Shoes AG is a German fashion company headquartered in Rosenheim which specializes in manufacturing high end ladies' shoes. The company, founded in 1949, has been using air, sea and road transport services by international transport and info-logistics provider cargo-partner for more than 10 years. The cooperation encompasses the procurement of raw materials from different countries and the further transport to Gabor's production sites in Germany, Slovakia and Portugal.

A decisive factor for choosing cargo-partner as a logistics provider was the high level of service quality and the individual consultation. With cargo-partner, Gabor has a permanent contact person who coordinates all air, sea and road transports for the fashion company. Thanks to the long-standing relationship between the two companies and the continuous exchange of information, swift procedures are ensured.

cargo-partner regularly supplies Gabor with shipment overviews as well as status, performance (KPI) and discrepancy reports via the supply chain management platform SPOT. This way, transparency is provided throughout the entire supply chain and Gabor can react quickly if needed. "Our cooperation with cargo-partner is characterized by direct contact and trust. Communication runs smoothly and processes are very well-coordinated, including with our overseas locations," says Johann Haas, Senior Head of Logistics at Gabor.
