Reliable Transport Solutions

Company: Rábalux Zrt.
Industry: Manufacturing

Services provided by cargo-partner:
Sea, Road, eFulfillment,
Value Added Services,
Supply Chain Management

Company profile

Rábalux is a lighting company headquartered in Győr, Hungary, which specializes in assembling and selling luminaires, conventional and energy-saving light sources. The company has been present in several European countries since 2002 and serves approximately 700 Do-It-Yourself stores and lighting retailers across Europe.

Initial Situation

Rábalux's annually renewed portfolio encompasses 1,700 items, 98% of which stem from imports out of the Far East. To optimize its warehousing and distribution, Rábalux was looking for a logistics provider who could provide accurate information at every point of the transport chain.

Solutions

The cooperation between Rábalux and cargo-partner began in 2013. The international info-logistics provider coordinates all steps of the transport process, from pick-up of the containers at different locations in Asia up to final delivery at the Rábalux warehouse in Győr.

cargo-partner handles the arriving shipments and delivers them to the container terminal in Budapest according to the schedule defined by Rábalux. Thanks to the enhanced transparency provided by SPOT, cargo-partner can set the right priorities and save time and costs on processes such as customs clearance and shipment consolidation.
